PROJECT OVERVIEW

Project ID

CE0100042

Name of the lead partner organisation

(in English language)

North-West Croatia Regional Energy and Climate Agency

Project duration in months

36

Project acronym

GreenScape CE

Name of the lead partner organisation

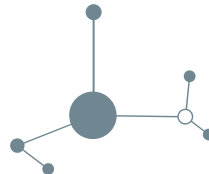

Regionalna energetska-klimatska agencija Sjeverozapadne Hrvatske

Project title

Climate-proof landscape through renaturing urban areas in Central Europe

Programme priority specific objective

SO2.2: Increasing the resilience to climate change risks in central Europe

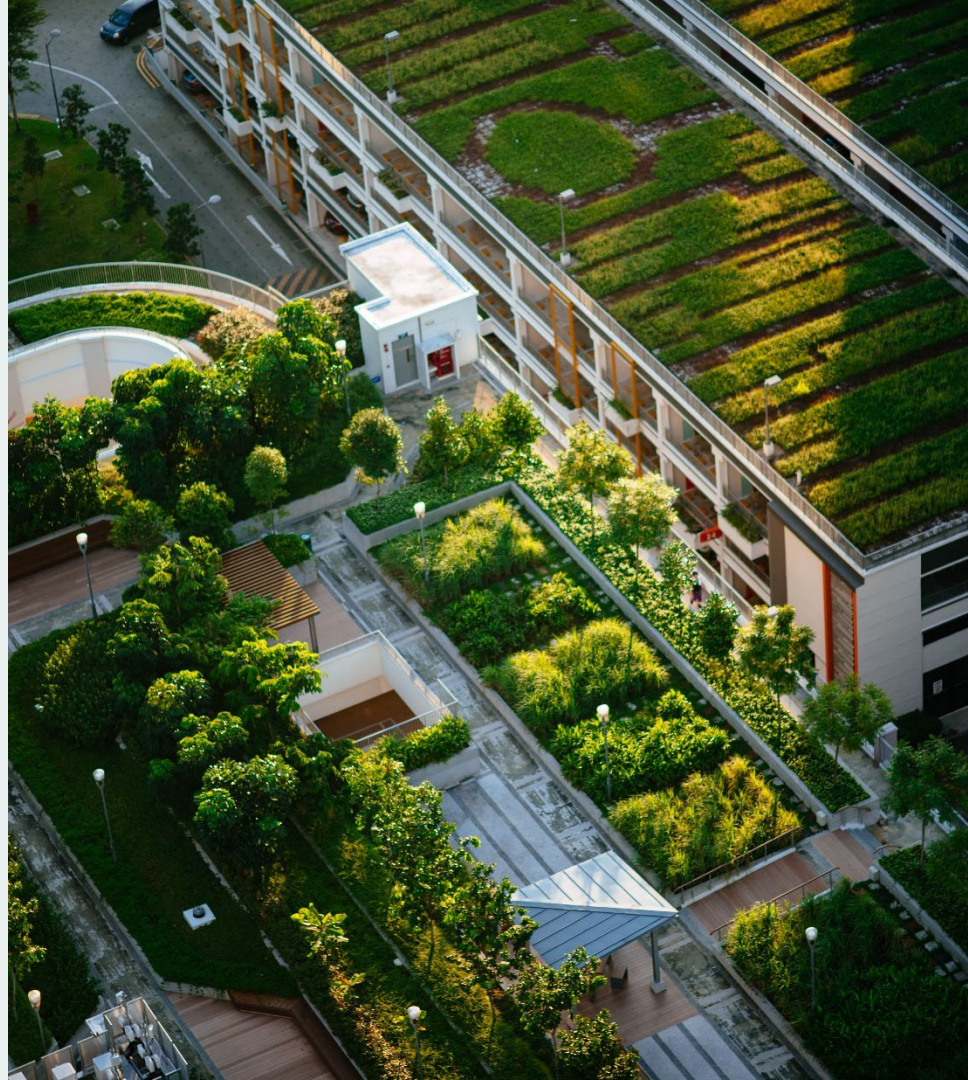

Project Summary

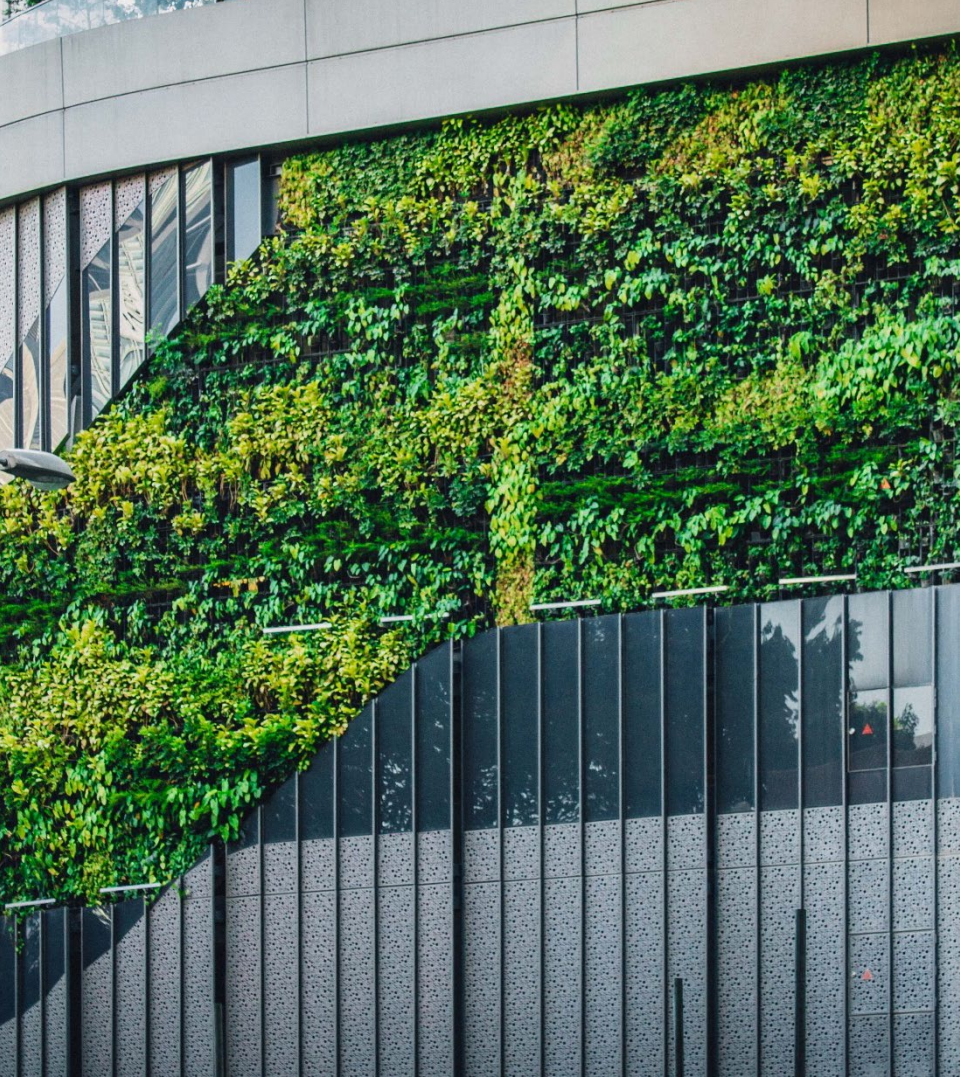

Climate-proof landscape
through renaturing urban areas
in Central Europe

The context

Increasing urban sprawl transforms the green areas of Central Europe into grey areas, making urban areas more susceptible to the negative effects of extreme weather events and climate change, intensifying the effects and occurrence of urban heat islands and urban flooding, and leading to air pollution, health challenges, loss of biodiversity and growth in energy demand.

The project

GreenScape CE paves a way for integrating nature-based solutions (NBS) and green infrastructure (GI) in the grey infrastructure in 5 CE urban areas, significantly affected by aggravating urban heat island effect: Milano Metropolitan Area, Ptuj, Szegedin, Warsaw and Zagreb through peer-to-peer learning, transnational capacity building and participatory decision-making.

Objectives

GreenScape CE aims to lay the groundwork for integrating green into grey infrastructure in urban areas thus contributing to climate-proof landscape and urban planning. Through improved policy, cross-border peer-to-peer learning and the cooperative development of action plans, the project aims to equip local governments and communities with the necessary skills to set up and fund viable Nature-Based Solutions projects that will ease environmental and socio-economic impacts of climate change risks in urban areas.

An aerial photograph of a city, likely Prague, showing a dense residential area with many buildings featuring red-tiled roofs. A large green park is visible in the lower-left quadrant. In the upper-right corner, there is a white network diagram consisting of interconnected circles and lines, symbolizing a network or partnership. A large, semi-transparent grey circle is overlaid on the left side of the image, containing the word "Partners" in a bold, black, sans-serif font.
