On behalf of **[Organization's Name]**, I am pleased to express our interest in supporting the measures of the National Action Plan developed in the RENOINVEST project, funded by the European Union under the LIFE programme (project number: 101120673-LIFE22-CET-RENOINVEST).¶

We recognise the importance of the National Action Plan and its specific measures to facilitate investments in sustainable building renovation, which need to be integrated into the national policy framework and implemented in the construction sector by engaging local stakeholders and ensuring long-term impact. Such a strategic approach to mobilising private and public financing for deep building renovation is extremely important and commendable.¶

We are therefore willing to contribute to the best of our ability to support the proposed measures of the National Action Plan in the following way:¶

YOU NEED TO ADAPT THE TABLE: *the measures to be listed from your **National Action Plan**.*¶
